Please provide any additional information about your qualifications to serve as a trustee that you wish to be considered by the Board of Trustees.

I am interested in becoming a Member of Board of Trustees from CERS. My resume will provide you with information relating to my background and some of my abilities. I have over 35 years of experience in safety, workers compensation, loss control, training and education within the public and private sectors to bring to the board. During my 27 years of service on Louisville Fire and Rescue I have dealt with fire, floods, a tornado, horrific auto accidents, medical, and almost every type of Emergency incident conceivable. After leaving the public sector I worked in the private sector as a Safety Manager at the Largest Construction Site in North America, partnering with Kentucky OSHA during the state's first Construction Partnership (UPS Hub 2000 in Louisville KY), and as an EH&S Director within the automotive industry I managed safety at sites in the USA, Canada, and Mexico, and most recently represented Material Handling Systems at the UPS Worldport Project, receiving both the Liberty Mutual Silver Safety Award and the Kentucky Governor's Safety Award. I am presently enjoying working with the Kentucky Public Retirees and the Kentucky Public Pension Coalition to safeguard our public pensions within the Commonwealth. I am in my third term on the board of directors of the KY Safety and Health Network. I have enjoyed volunteering with the Little League, civic organizations, churches and The Boy Scouts of America teaching CPR and First Aid. I received the KSHN award for safety in Business in 2012 and also have received the Kentucky Public Retirees Humanitarian Award. I believe an effective board of trustees should be able to draw on a diverse range of skills, knowledge, qualities and experience to help it fulfill its duty to the members. I am presently retired fulltime and would appreciate the opportunity to serve with the Kentucky Retirement System as a Member of Board of Trustees from CERS.
